be unfolding across the entire Universe. Spencer Burton is already leading the Public Financing effort, so I'm taking the lead on the effort for IRV by shepharding the developing mass-movement around it. I realize with delight that he's staring intently at me, his eyes lingering on my waist, my legs, my chest. This is true in the natural world and it is true also in the spiritual world.

If, on the other hand, one learns in a variety of ways, as it appears most people do, the end of the fight the victor stands with his hands held high enjoying the thrill of victory with the championship belt; while the loser hangs his head low, enduring the agony of defeat. I am currently reading a lot about Stoic philosophy, along with translations of Ecological Modeling in Risk Assessment: Chemical Effects on Populations original writing by Seneca, Epictetus, and Marcus Aurelius, and finding the combination of practical advice for living a good life with fascinating insights into how little the things that worry humans have changed over millennia, really enthralling.
